

Inspiratiedag inclusiviteit en skills in de maritieme sector

Lloydstraat 300, Rotterdam

Begindatum: 06-09-2024 09:00

Einddatum: 06-09-2024 17:00

What we do

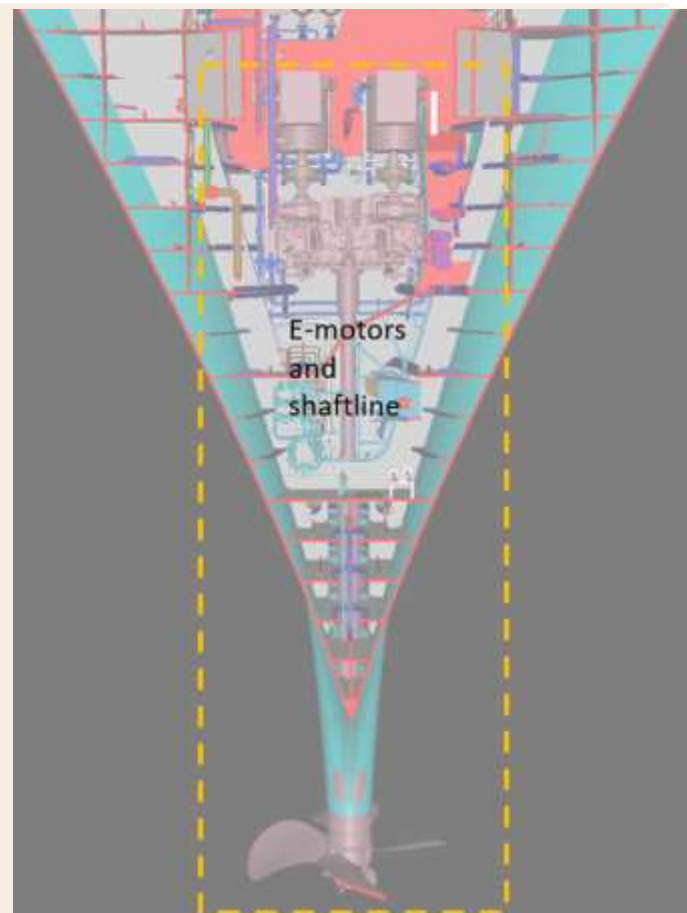

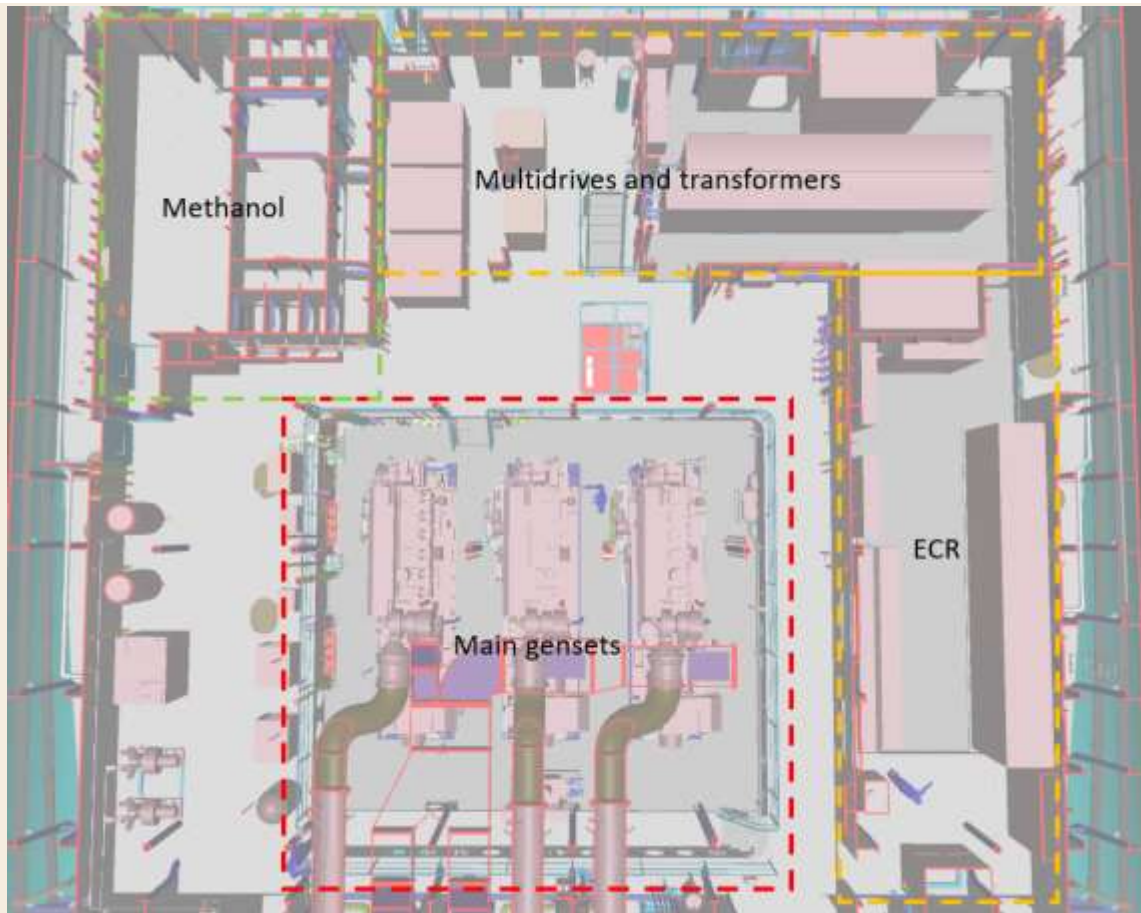

Key features: Electric propelled by MeOH/ Fossil

(3.2 MW e-Propulsion, 1.5 MWh Battery, Shore power)

2026: Fossil

2027: Fossil >> (Bio?)

2028: Green Methanol/ (Bio) Fossil

Staff Requirements ?

- Traditional Engineer plus electric-operational skills?
- Electrical Engineer plus mechanical skills?
- Manned or unmanned?

'Skilled' by:

- University, STCW or Market?
- in-house, external?
- MeOH by IGF code or dedicated code?
- Remotass (next slide)

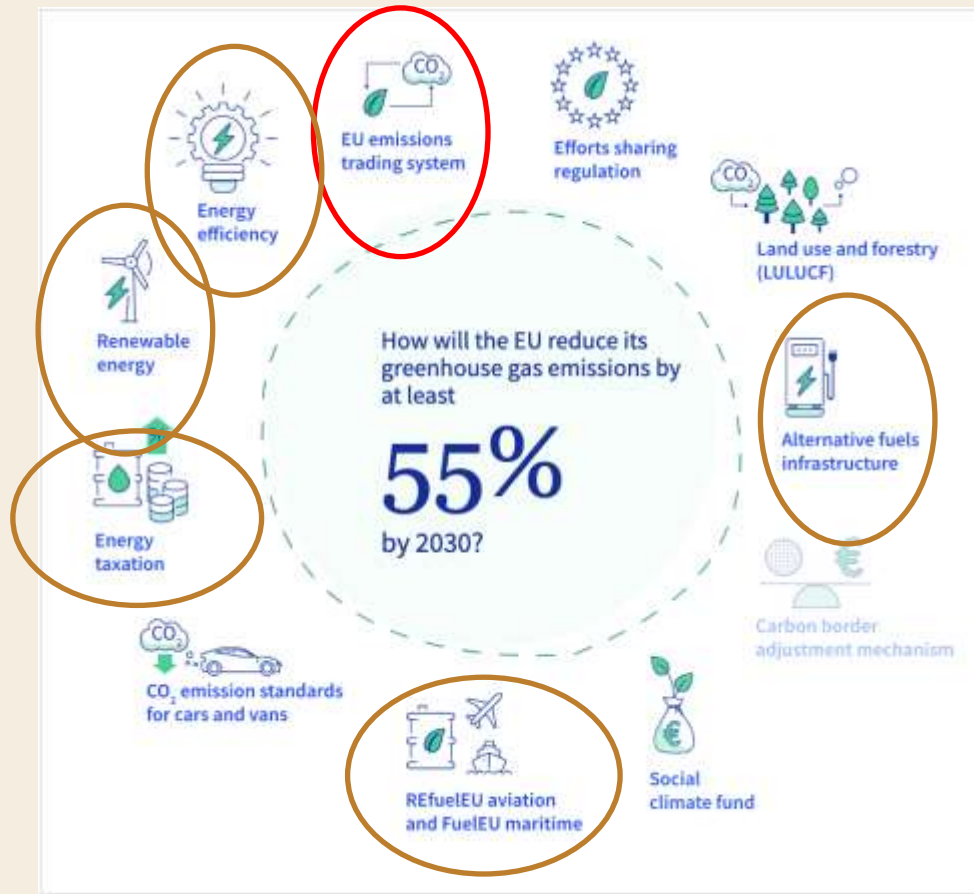

REMOTASS

Remote
Efficient
Maritime
Operations
Transport
Alliance
Sea
Shipping

Joint project towards remote controlled
corridor between UK and NL

Q & A

Thank You

ETS as “fund-engine” & Greener Fuels in Shipping:

Goal: Renewable and Low Carbon Fuels (FuelEU Maritime)

Reduce GHG intensity of energy used on board vessels upto 80% by 2050....by the use of greener fuels

Despite progress in recent years... still relies almost entirely on fossil.... etc
